

20th Biennial Congress: Cambridge, UK, Thurs 8th - Sat 10th September

Full Scientific Programme – Final Online Version

Any further late changes to this programme will be communicated to delegates at the Congress

We are pleased to welcome over 320 delegates from across the world to the 20th Congress of the European Psychiatric Association Section of Epidemiology & Social Psychiatry.

Over our 2.5-day programme, delegates will contribute almost 300 presentations at our Congress, from internationally-renowned plenaries through to the latest research presented as part of themed symposia, parallel oral sessions, our Early Career Researcher Rapid-Fire talks or lunchtime posters.

The full 2.5-day programme can be found overleaf. Each session is organised by Session ID and Presentation ID.

For the final version of our Outline Programme and Abstract Book, visit www.psychepi.org/congress/programme or download our Eventflo Congress app from the Google Play or Apple App stores. You can also download a PDF copy of the full abstract book from the link above or QR code below.

Full Scientific Programme: Thurs 8th September

Time / ID	Session	Room
08:45 - 09:00	Opening Ceremony: Arnstein Mykletun , James Kirkbride	CH
09:00 - 10:00	Plenary 1: A strategy of preventive psychiatry: lessons from the pandemic, 'p' and Geoffrey Rose Prof Peter B. Jones , University of Cambridge, UK. Chair: Prof James Kirkbride , UCL, UK	CH
10:00 - 10:30	COFFEE BREAK	RR/Foyer
10:30 - 12:00	Themed symposia S1-S6	
	S01 The clinical high risk paradigm for psychosis – time for a new approach to prevention	CH
	Chair & Discussant: David Cotter , Royal College of Surgeons in Ireland, Ireland	
	01. Early identification and enhancing protective factors are the key to prevention Mary Cannon , Royal College of Surgeons in Ireland, Ireland	
	02. Psychosis: Moving on from Selective to Universal Prevention Robin Murray , King's College London, UK	
	03. Thoughts of self-harm in late adolescence as a risk indicator for mental disorders in early adulthood: evidence from the ALSPAC study David Mongan , Queens University Belfast, UK	
	04. A critique of the 'ultra-high Risk' and 'transition' paradigm Sinan Guloksuz , Maastricht University, Netherlands	
	S02 Multimorbidities & mental health: How are excluded & marginalised communities impacted?	LR1
	Chair: Jayati Das-Munshi , King's College London, UK	
	01. Inequalities in multimorbidity for people who have experienced homelessness: Analysis of the Adult Psychiatric Morbidity Surveys. Natasha Chilman , King's College London, UK	
	02. Ethnic differences in physical and mental multimorbidity in working age adults with a history of common mental health disorders Amy Ronaldson , King's College London, UK	
	03. Living 'less safely' in the pandemic for racialised minorities with serious mental and physical health conditions Josephine Ocloo , King's College London, UK	
	04. What can primary care data tell us about the mental health of ethnic minority communities with physical Long Term Conditions? Mark Ashworth , King's College London, UK	
	Discussant: Matthew Hotopf , King's College London, UK	
	S03 Myths and truths about the impact of the COVID-19 pandemic on the mental health of different populations: a global mental health perspective	LR2
	Chair: Els van der Ven , Vrije Universiteit Amsterdam, Netherlands	
	01. Changes in suicide trends after the initial COVID-19 pandemic outbreak in Spain Gonzalo Martinez-Ales , Harvard University, USA	
	02. The impact of the COVID-19 pandemic and previous natural disasters on the mental health of healthcare workers in Puerto Rico Els van der Ven , Vrije Universiteit Amsterdam, Netherlands	
	03. Exposure to violence and depression among primary care workers during the COVID-19 pandemic in São Paulo, Brazil: a mixed-method study Andréa Tenório Correia da Silva , University of São Paulo, Brazil	
	04. Examining the relation between early psychosis and COVID-19 hospitalization and vaccination in Chile Franco Mascayano , Columbia University, USA	
	Discussant: Cristian Montenegro , University of Exeter, UK	

Time / ID	Session	Room
10:30 - 12:00	Themed symposia S1-S6 (continued from previous page)	
	<p>S04 Autism epidemiology across different age groups & settings</p> <p>Chair: Traolach Brugha, University of Leicester, UK</p> <p>01. Autism epidemic, myths, facts, and influencers. The difference between passive and active sampling Traolach Brugha, University of Leicester, UK</p> <p>02. Autism Prevalence among Adults Admitted to Acute Mental Health Wards Sam Tromans, University of Leicester, UK</p> <p>03. Comparing children and adults with and without autism: using community-based surveys to examine experiences of bullying and victimization Sally McManus, City, University of London, UK</p> <p>Discussant: Sam Tromans, University of Leicester, UK</p>	LR3
	<p>S05 Pathways to care & treatment following First-Episode Psychosis in young refugees & native-born peers: registry-based evidence from the Remain Research Consortium</p> <p>Chair: Ellenor Mittendorfer-Rutz, Karolinska Institutet, Sweden</p> <p>01. Incidence and age at first contact for non-affective psychotic disorders in young refugees and peers in Denmark and Sweden: a registry linkage study Christopher de Montgomery, University of Copenhagen, Denmark</p> <p>02. Compulsory admissions for non-affective psychotic disorders in young refugees and peers in Denmark Christopher de Montgomery, University of Copenhagen, Denmark</p> <p>03. Psychiatric healthcare use among refugee, non-refugee migrant, and Swedish-born youth with psychotic disorders: Findings from the REMAIN study Alexis Cullen, Karolinska Institutet, Sweden</p> <p>04. Antipsychotic treatment patterns in refugees and their Swedish-born peers with first-episode non-affective psychosis -REMAIN study Heidi Taipale, Karolinska Institutet, Sweden</p> <p>Discussant: Alexis Cullen, Karolinska Institutet, Sweden</p>	LR4
	<p>S06 Population health perspectives on ADHD</p> <p>Chair: Arnstein Mykletun, Haukeland University Hospital, Norway</p> <p>01. Survey on attitudes toward ADHD diagnosis and medication among clinicians in the Norwegian child and adolescent mental health services Ingvild Lyhmann, Helse Bergen, Norway</p> <p>02. The epidemiology of Attention Deficit Hyperactivity Disorder: A systematic meta-review of systematic reviews Ashmita Chaulagain, Helse Bergen, Norway</p> <p>03. Geographical variation in ADHD: do diagnoses reflect symptom levels? Tarjei Widding-Havneraas, University of Bergen, Norway</p> <p>04. Controversies in Psychiatry: Causal Modeling of Variation in Clinical Practice and Long-Term Outcomes of ADHD using Registry Data. A study protocol Arnstein Mykletun, Haukeland University Hospital, Norway</p> <p>05. Prediction of childhood ADHD symptoms from prenatal and perinatal data Niamh Dooley, Royal College of Surgeons in Ireland, Republic of Ireland</p> <p>Discussant: Olav Nytingnes, Akershus Univesitetsskyehus, Norway</p>	LR5

Day 1 - Thurs 8 Sep – Continues overleaf

Time / ID	Session	Room
12:00 - 13:30	LUNCH, including:	RR/Foyer
	Section meeting: business meeting & elections (all welcome) 12:15-13:15	LR1
	RF1 Rapid-Fire ECR talks: SMI, substance use, ADHD & dementia (<i>see Page 18</i>) 12:30-13:30 Chair: Dr Els van der Ven , Vrije Universiteit Amsterdam, Netherlands	LR4
	RF2 Rapid-Fire ECR talks: Mood & anxiety symptoms and disorders in the time of COVID-19 (<i>see Page 19</i>) 12:30-13:30 Chair: Dr Milagros Ruiz , UCL, UK	LR5
P1 Posters: Well-being, distress, mood & anxiety disorders, self-harm & suicidality (<i>see Pages 22-24</i>).	RR	
13:30 - 14:30	Plenary 2: Digital interventions in psychiatry: the road towards personalized care for everyone? Prof Inez Myin-Germeys , KU Leuven, Belgium. Chair: Prof Christine Kühner , Central Institute of Mental Health Mannheim, Germany	CH
14:30 - 16:15	Oral presentations - parallel sessions	
OP01 Life course epidemiology of common mental disorders & symptoms	CH	
Chair: Nick Glozier , University of Sydney, Australia		
01. A tale of two cities: using epidemiological data to assess the causal impact of Australia's unique controlled trial of lockdown Nick Glozier , University of Sydney, Australia		
02. The life-course trajectory of depression in the population: is the treatment evidence base fit for purpose? Traolach Brugha , University of Leicester, UK		
03. Treatment of common mental disorders in a large Swedish primary care sample: Impact of patient characteristics on type of treatment received Alexis Cullen , Karolinska Institutet, Sweden		
04. Anemia during pregnancy and risk of postpartum depression and anxiety Renee Gardner , Karolinska Institutet, Sweden		
05. Testing the association of physical activity and sedentary behaviour with mental health and substance use disorders: A Mendelian Randomisation study Eleonora Iob , King's College London, UK		
06. The impact of sexual violence in mid-adolescence on girls' mental health: evidence from a longitudinal population-based study Praveetha Patalay , UCL, UK		
07. Costing the mental health harms of sexual and physical violence in adulthood: a prevalence-based analysis in England Sally McManus , City, University of London, UK		
08. Mental health effects of providing unpaid care in early, mid and older adulthood in the UK: a longitudinal propensity score analysis Rebecca Lacey , UCL, UK		
OP02 New perspectives in the clinico-epidemiology of mental health disorders across the life course: from autism to mood disorders and dementia	LR1	
Chair: Christopher Mueller , King's College London, UK		
01. Intrahepatic cholestasis of pregnancy and neurodevelopmental conditions of children: a large-scale cohort study of children and families Shuyen Chen , Karolinska Institutet, Sweden		
02. Maternal Infection During Pregnancy and Risk of Autism Spectrum Disorder and Intellectual Disability: A Negative Control and Sibling Comparison Hugo Sjövist , Karolinska Institutet, Sweden		

Time / ID	Session	Room
OP02 (con't)	<p>New perspectives in the clinico-epidemiology of mental health disorders across the life course: from autism to mood disorders and dementia <i>(Continued from previous page)</i></p> <p>Chair: Christopher Mueller, King's College London, UK</p> <p>03. Maternal Immune Markers in Early Pregnancy and Children's Risk for Autism Martyn Brynne, Karolinska Institutet, Sweden</p> <p>04. Preference-based instrumental variables rely on important and underreported assumptions: a systematic review Tarjei Widding-Haverneraas, University of Bergen, Norway</p> <p>05. A solution-focused approach (DIALOG+) to improve quality of life for people with chronic depression: findings from a feasibility trial Lauren Jerome, Queen Mary University London, UK</p> <p>06. Finding the social: reflections from a pilot study, on the use of the ICD 10 Z Codes in the assessment of in-patient needs in an Irish setting Aidan Cooney, HSE Louth and Meath Mental Health, Republic of Ireland</p> <p>07. Sedation-associated medications at dementia diagnosis, their receptor activity, and associations with adverse outcomes Christopher Mueller, King's College London, UK</p>	LR1
OP03	<p>Pathways to & through care: impact of policy & mental health care</p> <p>Chair: Kelly K. Anderson, Western University, Canada</p> <p>01. The impact of cannabis legalization on the frequency and health services use for psychotic disorders Kelly K. Anderson, Western University, Canada</p> <p>02. ---- WITHDRAWN ----</p> <p>03. ---- WITHDRAWN ----</p> <p>04. Using research to improve service planning: quantifying need for lifestyle interventions among young adults with mental disorders in Australia Kate Gossip, The University of Queensland, Australia</p> <p>05. Adolescent gender roles and receiving professional help for mental health problems - a longitudinal study Eva Lassemo, SINTEF Health Research, Norway</p> <p>06. A ten-year cohort study on the stability and trajectories of psychiatric diagnosis in adolescents and young adults in Lazio, Italy Anna Forastiere, Lazio Region Health Service, Italy</p> <p>07. Predictive factors for manic conversion in a high-risk group of bipolar disorder with a first onset major depressive episode Yunna Kwan, Duksung Woman's University, South Korea</p> <p>08. The mental health and benefit profile of patients accessing secondary mental healthcare services: preliminary results of a novel data linkage Sharon Stevelink, King's College London, UK</p>	LR2
OP04	<p>The epidemiology of disordered eating, mental distress & substance use: updates</p> <p>Chair: Francesca Solmi, UCL, UK</p> <p>01. Sociodemographic differences in clinical presentation and time to referral to mental health services of eating disorder patients in UK primary care Sungmin Hahn, UCL, UK</p> <p>02. Depressive symptoms in caregivers of adult anorexia and bulimia patients – how are these connected to ED severity? A pilot study Krisztina Kocsis-Bogar, Medical University of Vienna, Austria</p> <p>03. Attempted suicide rates and exposure to the COVID-19 pandemic: interrupted time series analysis of a nationally representative sample Stephen Levine, University of Haifa, Israel</p>	LR3

Time / ID	Session	Room
OP04 (con't)	The epidemiology of disordered eating, mental distress & substance use: updates (continues from overleaf) Chair: Francesca Solmi , UCL, UK	LR3
	04. Longitudinal study on perceived stress, coping strategies, and mental health status among adolescents during the COVID-19 pandemic in Switzerland Meichun Mohler-Kuo , University of Applied Sciences and Arts, Switzerland	
	05. ---- WITHDRAWN ----	
	06. The natural history of DSM-5 alcohol use disorder symptoms: Prospective cohort study of 565 young adult regular drinkers Tim Slade , University of Sydney, Australia	
	07. ---- WITHDRAWN ----	
	08. Using Artificial Intelligence to Identify Clinical and Risk Markers for Mental Disorder (InPREMENT Study) Jorge Cervilla , University of Grenada, Spain	
	09. Accuracy of the Development and Well-Being Assessment screening items in screening young people for eating disorders Jessica O'Logbon , University of Cambridge, UK	
OP05	Public & community mental health: from concepts to practice	LR4
	Chair: Jen Dykxhoorn , UCL, UK	
	01. Conceptualising public mental health: development of a conceptual framework for public mental health Jen Dykxhoorn , UCL, UK	
	02. A quantitative approach to the intersectional study of mental health inequities in UK young adults during the COVID-19 pandemic Darío Moreno-Agostino , UCL, UK	
	03. Socioeconomic position at the age 30 years and the later risk of mental disorder: a Finnish nationwide register-based cohort study Christian Hakulinen , University of Helsinki, Finland	
	04. Early-life socioeconomic deprivation and trait anxiety in young adulthood Pavla Cermakova , National Institute of Mental Health, Czech Republic	
	05. Wealth distribution moderates the relation between stressful life events, resilience and affective psychopathology Rodolfo Rossi , University of Rome Tor Vergata, Italy	
	06. Potential for Increased Epilepsy Awareness: Impact of Health Education Program in School on Teachers and Children Meena Kolar Sridara Murthy , National Institute of Mental Health and Neuro Sciences, India	
	07. Importance of various domains of life: Adjusting expectations to cope with stigma experiences? Robert Moosbrugger , Johannes Kepler University, Austria	
	08. Affective and social experiences and mental health needs during large-scale social movements: A study of the 2019-2020 protests in Lebanon Martine Elbejjani , American University of Beirut, Lebanon	
OP06	At the interface of physical & mental health: daily activities, comorbidity & mortality	LR5
	Chair: Martin Preisig , Centre Hospitalier Universitaire Vaudois, Switzerland	
	01. Daily time use among individuals with schizophrenia spectrum disorders and the Italian general population Giovanni de Girolamo , St. John of God Clinical Research Centre, Italy	
	02. Objectively assessed sleep and physical activity in depression subtypes and their mediating role in the association with cardiovascular risk factors Jennifer Glaus , University Hospital of Lausanne, Switzerland	

Time / ID	Session	Room
OP06 (<i>con't</i>)	At the interface of physical & mental health: daily activities, comorbidity & mortality (<i>continued from overleaf</i>) Chair: Martin Preisig , Centre Hospitalier Universitaire Vaudois, Switzerland	LR5
	03. Associations of physical activity by actigraphy with current major depression and remitted depression subtypes in a population-based cohort study Caroline Vandeleur , University Hospital of Lausanne, Switzerland	
	04. Predictors of falls and fractures leading to hospitalisation in 36 101 people with affective disorders: a large representative cohort study Eugenia Romano , King's College London, UK	
	05. Osteoporosis referral and treatment among people with severe mental illness: a ten-year data linkage study Ruimin Ma , King's College London, UK	
	06. Mortality and Life-Years Lost Following Physical Comorbidity in People with Substance Use Disorders: A Retrospective Nation-wide Cohort Study Tomas Formanek , University of Cambridge, UK	
	07. Mortality in Major Depressive Disorders and its subtypes during an 11-year follow-up Martin Preisig , Centre Hospitalier Universitaire Vaudois, Switzerland	
16:15 - 16:45	COFFEE BREAK	RR/Foyer
16:45 - 18:15	Themed symposia	
S07	Perspectives on mental health inequalities during the COVID-19 pandemic: qualitative & quantitative evidence over the life course from cohort studies Chair: Darío Moreno-Agostino , UCL, UK	CH
	01. Inequalities in the impacts of the COVID-19 pandemic on young people's mental health: emerging findings from the REACH cohorts Gemma Knowles , ESRC Centre for Society & Mental Health, UK	
	02. An in-depth exploration of the impacts of the COVID-19 pandemic on the mental health of young people: findings from a digital diary study Georgina Miguel Esponda , ESRC Centre for Society & Mental Health, UK	
	05. Severe mental illnesses, ethnic inequalities and mortality following COVID-19 infection: Nationally representative cohort study from the UK Jayati Das-Munshi , King's College London, UK (S07.05 – <i>change to running order</i>)	
	04. Sex inequalities in the effects of the COVID-19 pandemic on long-term psychological distress trajectories: evidence from 40 years of follow-up data Darío Moreno-Agostino , ESRC Centre for Society & Mental Health, UK	
	03. 'With us, not about us': Co-researching young people's mental health, before and during the COVID-19 pandemic Thai-sha Richards , ESRC Centre for Society & Mental Health, UK (S07.05 – <i>change to running order</i>)	
	Discussant: Young Co-Researchers (Community Champions)	
S08	Evaluation of the 'Every Mind Matters' campaign in England	LR1
	Chair & Discussant: Claire Henderson , King's College London, UK	
	01. Every Mind Matters campaign and online resource - qualitative interviews about user experiences and views Ruth Stuart , King's College London, UK	
	02. Mental health literacy: a focus on daily life context for population health measurement Kia-Chong Chua , King's College London, UK	
	03. The Every Mind Matters campaign in England: changes in mental health literacy over 30 months and associations between campaign awareness and outcomes Sungmin Hahn , UCL, UK	
	04. Health economic impact of Every Mind Matters campaign Paul McCrone , University of Greenwich, UK	

Time / ID	Session	Room
	<p>S09 Momentary psychological mechanisms assessed using the Experience Sampling Method in individuals with mental disorders: potential targets for public mental health interventions</p> <p>Chair: Christine Kühner, Central Institute of Mental Health, Germany</p> <p>01. Reactivity towards daily events: intraindividual variability and intraindividual change in recurrently depressed patients Isabelle Schrickler, Central Institute of Mental Health, Germany</p> <p>02. Affective, cognitive and symptom reactivity to daily life stressors indicates an elevated stress response in chronic musculoskeletal pain patients Leonie Ader, Central Institute of Mental Health, Germany</p> <p>03. Investigating the temporal association between social isolation and psychotic experiences in individuals at clinical high risk for psychosis Zeynep Akcaoglu, KU Leuven, Belgium</p> <p>04. Acceptance and Commitment Therapy in Daily Life (ACT-DL): Targeting stress and reward mechanisms Thomas Vaessen, KU Leuven, Belgium</p> <p>Discussant: Inez Myin-Germeys, KU Leuven, Belgium</p>	LR2
	<p>S10 Societal consequences of scaling up Individual Placement and Support</p> <p>Chair: Arnstein Mykletun, Haukeland University Hospital, Norway</p> <p>01. A systematic review of economic studies of supported employment programs for people with mental health conditions A-La Park, London School of Economics and Political Science, UK</p> <p>02. A meta-regression of the impact of policy on the efficacy of individual placement & support Beate Brinchman, Nordland Hospital, Norway</p> <p>03. Impact of economic arguments on the implementation of supported employment for people with mental health conditions David McDaid, London School of Economics and Political Science, UK</p> <p>04. Lived Experience as an IPS User Simon Engelién, Nordland Hospital, Norway</p> <p>05. Is Individual Placement and Support successful in increasing employment rates during 10 year follow-up? Beate Brinchman, Nordland Hospital, Norway</p> <p>Discussant: Olav Nytingnes, Akershus Univesitetsskyehus, Norway</p>	LR3
	<p>S11 Examining the association between psychosis, migration & ethnicity - from risk to outcome</p> <p>Chair: Brian O'Donoghue, St Vincents University Hospital, Ireland</p> <p>01. Outcomes one year after a first episode of psychosis in migrants to the Republic of Ireland Brian O'Donoghue, St Vincents University Hospital, Ireland</p> <p>02. Variation in five-year illness outcomes for ethnic groups in the UK following a first episode of psychosis Sian Griffiths, University of Birmingham, UK</p> <p>03. Ethnic and migrant group variations in treatments for psychosis: a systematic review Nathalie Rich, UCL, UK</p> <p>04. Lost in Translation? Deciphering the Role of Language Differences in the Excess Risk of Psychosis among Migrant Groups Kelly K. Anderson, Western University, Canada</p> <p>05. Exploring indigenous ethnic inequities in first episode psychosis in New Zealand – A national cohort study Cameron Lacey, University of Otago Wellington, New Zealand</p> <p>Discussant: Craig Morgan, King's College London, UK</p>	LR4

Time / ID	Session	Room
	<p>S12 Psychotic disorders & daily life: contributions from recent ecological research</p> <p>Chair: <u>Giovanni de Girolamo</u>, St. John of God Clinical Research Centre, Italy</p> <p>01. Daily Time Use, Physical Activity and Interpersonal Relationships in Patients with Schizophrenia Spectrum Disorders (Diapason): an Italian Multicentred Study <u>Giovanni de Girolamo</u>, St. John of God Clinical Research Centre, Italy</p> <p>02. Being Alone Increases Distrust: The Role of Close Others and Empathy on Wellbeing And Trust <u>Imke Lemmers-Jansen</u>, Vrije Universiteit Amsterdam, Netherlands</p> <p>03. The Relationship Between Loneliness and Psychotic Symptoms in Daily-Life: an Experience Sampling Study <u>Anne-Kathrin Fett</u>, City, University of London, UK</p> <p>04. When to Regulate: Everyday Emotion-Regulation Strategy Use and its Contextual Factors in Early Psychosis <u>Xu Li</u>, University of Leuven, Belgium</p> <p>Discussant: <u>TBC</u></p>	LR5
18:30 - 20:30	<p>WELCOME RECEPTION (all invited) & PUNT TOURS (ticketed)</p> <p>Darwin College is about a ten minute walk from the Congress venue.</p>	Darwin College

CH: Concert Hall; LR1-LR5: Lecture Rooms 1-5; RR: Recital Room

Full Scientific Programme: Fri 9th September

Time / ID	Session	Room
08:00 - 08:30	ECR Keynote 1: Exploring the association between mental disorders and mortality using population-based registers from Denmark <u>Dr Oleguer Plana-Ripoll</u> , Aarhus University, Denmark. Chair: <u>Prof Robert Stewart</u>	CH
08:30 - 09:00	ECR Keynote 2: Genetics and causal inference in psychiatric epidemiology <u>Dr Jean-Baptiste Pingault</u> , UCL, UK. Chair: <u>Prof Robert Stewart</u>	CH
09:00 - 10:00	Plenary 3: Ounces of prevention: Public health approaches to reducing the burden of adolescent mental illness <u>Prof Ian Colman</u> , Ottawa University, Canada. Chair: <u>Prof Robert Stewart</u>	CH
10:00 - 10:30	COFFEE BREAK	RR/Foyer
10:30 - 12:00	Themed symposia	
	S13 The Mental health of children & young people in the time of Covid-19; children should be seen & heard Chair & Discussant: <u>Abby Russell</u> , University of Exeter, UK 01. The mental health of children and young people (MHCYP) from the national survey in 2017 and its follow ups, in 2020 & 2021 with a focus on eating disorders <u>Tamsin J Ford</u> , University of Cambridge, UK 02. The experiences of young people and parents of seeking and receiving help for mental health concerns during Covid-19: a qualitative interview study <u>Tamsin Newlove-Delgado</u> , University of Exeter, UK 03. MyJournE: Remote reporting of wellbeing, mood and life events in adolescents and young people <u>Jessica Penhallow</u> , King's College London, UK 04. Adolescents' Resilience During a Universal Stressor (COVID-19) MYRIAD COVID-19 Resilience Study <u>Tamsin J Ford</u> , University of Cambridge, UK 05. Secondary school pupils' mental health and wellbeing during the UK COVID-19 lockdowns: amplification of pre-existing risks <u>Karen Mansfield</u> , University of Oxford, UK	CH
	S14 Physical environment, cognition, and mental health over the life course Chair & Discussant: <u>Ioannis Bakolis</u> , King's College London, UK 01. The role of physical environmental characteristics and intellectual disability in conduct problem trajectories across childhood <u>Alister Baird</u> , UCL, UK 02. Neighbourhood greenspace and adolescent mental health in London: the roles of greenspace type and quality <u>Marie Mueller</u> , UCL, UK 03. Impact of air pollution on cognition during mid- and late adulthood. Results from the MRC National Survey of Health and Development (NSHD) <u>Jorge Arias de la Torre</u> , King's College London, UK 04. Air pollution and patterns of physical-mental multimorbidity in the UK Biobank: A cross-sectional study <u>Amy Ronaldson</u> , King's College London, UK 05. Associations between exposure to outdoor air pollution and cognitive function in England: the ELSA cohort. <u>Dylan Wood</u> , Imperial College London, UK	LR2
	S15 ---- WITHDRAWN ----	

Day 2 – Fri 9 Sep – Continues overleaf

Time / ID	Session	Room
	<p>S16 Individual Placement and Support implementation challenges & effectiveness</p> <p>Chair: <u>Miles Rinaldi</u>, Nordland Hospital, Norway</p> <p>01. Lived Experience in Research <u>Barbara Stenvall</u>, Nordland Hospital, Norway</p> <p>02. IPS implementation challenges <u>Cathrine Moe</u>, Nord University</p> <p>03. Approaches to implementing Individual placement and support in the health and welfare sectors: a systematic scoping review <u>Maria Ahmed</u>, Nordland Hospital, Norway</p> <p>04. Impact of Covid on IPS Service Delivery <u>Sina Wittlund</u>, Nordland Hospital, Norway</p> <p>Discussant: <u>David McDaid</u>, London School of Economics and Political Science, UK</p>	LR3
	<p>S17 Epidemiology of involuntary care: measurements, changes & methodological developments</p> <p>Chair: <u>Olav Nyttngnes</u>, Haukeland University Hospital, Norway</p> <p>01. Measuring Compulsory Hospitalisations: Geographical and Temporal Variation <u>Olav Nyttngnes</u>, Haukeland University Hospital, Norway</p> <p>02. Capacity-based mental health legislation and the use of compulsion. The case of Community Treatment Orders in Norway <u>Jorun Rugkåsa</u>, Akershus University Hospital, Norway</p> <p>03. Community treatment orders: Rethinking the Rationale and evidence in light of care trajectory and social psychiatric processes <u>Olav Nyttngnes</u>, Haukeland University Hospital, Norway</p> <p>04. Controversies in psychiatry: Is a high or a low rate of coercive measures (involuntary care) better for patients' prognosis? A study protocol <u>Arnstein Mykletun</u>, Haukeland University Hospital, Norway</p> <p>05. Do differences in access to clinical care prior to admission explain the association between ethnicity and involuntary admission? <u>Daniela Fonseca de Freitas</u>, King's College London, UK</p> <p>Discussant: <u>Arnstein Mykletun</u>, Haukeland University Hospital, Norway</p>	LR4
	<p>S18 Depression comorbidity in diabetes & cardiometabolic health: evaluating risk factors & outcomes</p> <p>Chair: <u>Sonya Deschenes</u>, University College Dublin, Ireland</p> <p>01. Systemic inflammation and the risk of depression in people with type 2 diabetes <u>Norbert Schmitz</u>, Tuebingen University, Germany</p> <p>02. GPS-derived daily movement and depression in people with type 2 diabetes: a descriptive analysis using passive digital phenotyping <u>Amy McInerney</u>, University College Dublin, Republic of Ireland</p> <p>03. Shared genetic variation between inflammation and depression <u>Zhanna Balkhiyarova</u>, University of Surrey, UK</p> <p>04. Diabetes, depression and cognitive functioning: longitudinal associations in the Canadian community <u>Mahdieh Shojaa</u>, Tuebingen University, Germany</p> <p>Discussant: <u>Sonya Deschenes</u>, University College Dublin, Ireland</p>	LR5
12:00 - 13:30	LUNCH, including:	RR/Foyer
	<p>Special Lunchtime Seminar: "45 years & counting: a guide to our Section"</p> <p><u>Emeritus Professor Anthony Mann</u>, IoPPN, KCL, UK</p> <p>12:30-13:15</p>	LR2
	<p>RF3 Rapid-Fire ECR talks: Social determinants, mental health care & mortality (see Page 20)</p> <p>12:30-13:30.</p> <p>Chair: <u>Prof James Kirkbride</u>, UCL, UK</p>	LR4

Time / ID	Session	Room
	LUNCH, including: <i>(continues from overleaf)</i>	
	RF4 Rapid-Fire ECR talks: Children & young people's mental health: new approaches & evidence <i>(see Page 21)</i> 12:30-13:30 Chair: Dr Renee Gardner , Karolinska Institutet, Sweden	LR5
	P2 Posters: SMI, substance use, comorbidity, childhood-onset disorders & health services <i>(see Page 25-27)</i>	RR
13:30 - 14:30	Plenary 4: Social Justice and Mental Health Equity Prof Sir Michael Marmot , UCL, UK. Chair: Dr Jen Dykxhoorn , UCL, UK	CH
14:30 - 16:15	Themed symposia / Oral Presentations	
	S19 Understanding inequalities in access to treatment for common mental disorders for racial & ethnic minorities in the UK Chair: Jay Das-Munshi , King's College London, UK	CH
	01. Co-producing recommendations to improve psychiatric trainees' knowledge and skills relating to race, culture, and mental health Preety Das , King's College London, UK	
	02. The influence of social environment on expressions of distress and help seeking in a deprived, ethnically diverse urban community Catherine Polling , King's College London, UK	
	03. Variations by ethnicity in referral and treatment pathways for IAPT service users in South London Rebecca Rhead , King's College London, UK	
	04. Inequalities in common mental health problems for people from ethnic minority backgrounds in England: a mixed methods study Gargie Ahmad , King's College London, UK	
	05. Access to mental healthcare in the year after first fit note: a longitudinal study of linked clinical records Sarah Dorrington , King's College London, UK	
	Discussant: Lela Kogbara , Black Thrive, UK	
	OP07 The epidemiology of comorbid mental & physical health	LR1
	Chair: Helen Lockett , Equally Well, New Zealand	
	01. Trends in association between physical illnesses and common mental disorders: Analysis of four nationally representative surveys in England Gayan Perera , King's College London, UK	
	02. Service user experiences of respect and discrimination in physical health care: results from an online survey Helen Lockett , Equally Well, New Zealand	
	03. Obesity as pleiotropic risk state for mental health throughout life Alexander Kautzy , Medical University of Vienna, Austria	
	04. Young people's mental health treatment in the community: the relationship with transdiagnostic distress and social functioning over two years Sharon Neufeld , University of Cambridge, UK	
	05. Psychiatric comorbidities in epilepsy: population co-occurrence, genetic correlations and causal effects Viktor Ahlqvist , Karolinska Institutet, Sweden	
	06. Subsequent Psychiatric Hospitalizations in People with Pre-existing Rheumatic Diseases: A National Registry-based Retrospective Cohort Study Karolina Mlada , National Institute of Mental Health, Czech Republic	
	07. Killing pain? A 15-year population-based registry study of the use of prescription analgesics, anxiolytics and hypnotics among young people in Norway Helle Stangeland , Norwegian Centre for Violence and Traumatic Stress, Norway	

Time / ID	Session	Room
	<p>OP08 Children & young people's mental health: from social determinants to intervention</p> <p>Chair: Anna-Clara Hollander, Karolinska Institutet, Sweden</p> <p>01. Adverse childhood experiences and the impact on child mental health: A secondary data analysis using the UK Millennium Cohort Study Kate Allen, University of Exeter, UK</p> <p>02. The socio-economic gradient in adolescent mental health: findings from 72 countries Thomas Steare, UCL, UK</p> <p>03. Child Behavioral Inhibition and Family Environment: Results from The ABCD Study Lara Abou Ammar, American University of Beirut, Lebanon [PRE-RECORDED]</p> <p>04. Informal help-seeking for mental health concerns in the Mental Health of Children and Young People in England 2017 survey Franki Matthews, University of Exeter, UK</p> <p>05. Are socioeconomic differences in utilisation of mental health care among Swedish adolescents explained by differences in mental health status? Anna-Clara Hollander, Karolinska Institutet, Sweden</p> <p>06. Neighbourhood characteristics and the treated incidence rate of borderline personality pathology in a specialist service for young people Brian O'Donoghue, St Vincents University Hospital, Republic of Ireland</p> <p>07. Reciprocal associations between affective decision-making and mental health in adolescence Francesca Bentivegna, UCL, UK</p> <p>08. Optimising the implementation of a universal web-based mental health service for Australian secondary schools: A cluster randomised controlled trial Mirjana Subotic-Kerry, Black Dog Institute, Australia</p>	LR2
	<p>S20 The application of large-scale healthcare data for innovative dementia research</p> <p>Chair: Christopher Mueller, King's College London, UK</p> <p>01. Use of antedementia medication is associated with reduced mortality in people with dementia with Lewy bodies: a longitudinal electronic records study Shanquan Chen, University of Cambridge, UK</p> <p>02. The utilisation of electronic health records in mental health research: analysis of pharmacological treatments for cognitive impairment in dementia Nemanja Vaci, The University of Sheffield, UK</p> <p>03. Critical care unit admissions of people with dementia: Who is admitted and what happens afterwards? Emel Yorganci, King's College London, UK</p> <p>04. One population, two data sources and three exploratory findings: doubling down on dementia epidemiology Katrina Davis, King's College London, UK</p> <p>05. 	<p>S21 Mental health research during COVID-19 in the National Core Study - Longitudinal Health & Wellbeing programme</p> <p>Chair: Ellen Thompson, King's College London, UK</p> <p>01. Pre-pandemic mental health and disruptions to healthcare, economic and housing outcomes during the COVID-19 pandemic: evidence from 12 UK longitudinal Ellen Thompson, King's College London, UK</p>	LR4

Day 2 – Fri 9 Sep – Continues overleaf

Time / ID	Session	Room
S21 (con't)	<p>Mental health research during COVID-19 in the National Core Study - Longitudinal Health & Wellbeing programme (<i>continues from overleaf</i>)</p> <p>Chair: <u>Ellen Thompson</u>, King's College London, UK</p> <p>02. Inequalities in Psychological Distress Before and During the COVID-19 Pandemic: Coordinated Analyses of 11 UK Longitudinal Studies <u>Kishan Patel</u>, MRC Unit for Lifelong Health & Ageing at UCL, UK</p> <p>03. Mental health outcomes following COVID-19 infection: Evidence from 11 UK longitudinal population studies <u>Jean Stafford</u>, MRC Unit for Lifelong Health & Ageing at UCL, UK</p> <p>04. Working from home and its association with mental health and wellbeing during the COVID-19 pandemic: Evidence from 7 UK longitudinal studies <u>Wels Jacques</u>, MRC Unit for Lifelong Health & Ageing at UCL, UK</p> <p>05. Combining and triangulating evidence from multiple population-based studies and electronic health records: mental health examples <u>Praveetha Patalay</u>, UCL, UK</p> <p>Discussant: <u>Praveetha Patalay</u>, UCL, UK</p>	LR4
OP09	<p>The impact of the COVID-19 pandemic on mental health: latest updates</p> <p>Chair: <u>Peter Butterworth</u>, The Australian National University, Australia</p> <p>01. COVID-19, lockdowns or the per-existing trend: What caused the poorer mental health of Australians during 2020? <u>Peter Butterworth</u>, The Australian National University, Australia</p> <p>02. The effects of the COVID-19 pandemic on mental health: Evidence from a nationally-representative longitudinal study <u>Phil Batterham</u>, The Australian National University, Australia</p> <p>03. Job loss and job instability during the Covid-19 pandemic and the risk of depression and anxiety among Swedish employees <u>Sandra Blomqvist</u>, Stress Research Institute, Stockholm</p> <p>04. A cohort study assessing impact of the COVID-19 pandemic on young adults' mental health in Switzerland <u>Simon Foster</u>, University Hospital of Psychiatry Zurich, Switzerland</p> <p>05. The relationship of childhood adversity, biomarkers, and polygenic susceptibility with older adults' psychological distress during the pandemic <u>Katie Taylor</u>, UCL, UK</p> <p>06. The impact of the COVID-19 pandemic on adolescent mental health: a natural experiment <u>Rosie Mansfield</u>, UCL, UK</p> <p>07. Age and depression during the COVID-19 pandemic in Spain: the role of social relationships, resilience, and socioeconomic factors. <u>Aina Gabarrell-Pascuet</u>, Sant Joan de Déu Research Institute, Spain</p> <p>08. Short-term improvement of mental health after a COVID-19 vaccination <u>Charilaso Chourpiliadis</u>, Karolinska Institutet, Sweden</p>	LR5
16:15 - 16:45	COFFEE BREAK	RR/Foyer
16:45 - 18:15	<p>Mental Health Question Time: What are the priorities for action to reduce & remove social inequalities in risk and outcomes of mental health disorders?</p> <p>Roundtable Discussion + Q&A, featuring <u>Prof Sir Michael Marmot</u>, <u>Dr Jayati Das-Munshi</u>, <u>Dr Jen Dykxhoorn</u>, <u>Kadra Abdinasir</u>, <u>Shuranjeet Singh</u> & <u>Sarah Joy</u>. Chair: <u>Prof Praveetha Patalay</u></p> <p>Live streamed on YouTube by <i>The Mental Elf</i></p>	CH
18:45 -	CONGRESS DINNER (ticketed) – Selwyn College Old Hall	Selwyn

CH: Concert Hall; LR1-LR5: Lecture Rooms 1-5; RR: Recital Room

Full Scientific Programme – Sat 10th September

Time / ID	Session	Room
WORLD SUICIDE PREVENTION DAY		
08:30 - 10:00	Themed symposia / oral presentations	
	<p>OP10 Progress in the epidemiology of suicidality & self-harm: latest findings</p> <p>Chair: Trine Madsen, Danish Research Institute of Suicide Prevention, Denmark</p> <p>01. COVID-19 symptoms, SARS-CoV2 infection and subsequent suicidal ideation in the French population-based EPICOV cohort: a propensity score analysis Camille Davisse-Paturet, Paris-Saclay University, INSERM, France</p> <p>02. Self-injury, suicidal ideation and -attempt and eating disorders in young people following the initial and second COVID-19 lockdown Stine Danielsen, Danish Research Institute of Suicide Prevention, Denmark</p> <p>03. Situational factors of mental health among health care workers during COVID-19 pandemic: results from the HEROES-CZ Longitudinal Study Matěj Kučera, National Institute of Mental Health, Czech Republic</p> <p>04. Utilisation and acceptability of formal and informal support for UK adolescents following self-harm before and during the first COVID-19 lockdown Rohan Borschmann, University of Melbourne, Australia</p> <p>05. Alcohol use and its association with suicide attempt, suicidal thoughts, and self-harm: results from the Adult Psychiatric Morbidity Surveys Sarah Ledden, UCL, London</p> <p>06. Risk of suicide attempt and suicide associated with benzodiazepine: a nationwide case-crossover study Marie Tournier, University of Bordeaux, France</p> <p>07. Traumatic Brain Injury and Risk of Subsequent Suicide Attempt Trine Madsen, Danish Research Institute of Suicide Prevention, Denmark</p>	CH
	<p>S22 Biological mechanisms linking social risk factors & mental health disorders</p> <p>Chair: Kate Merritt, UCL, UK</p> <p>01. The association between chronic exposure to social stress and striatal dopamine functioning: a systematic review of SPECT and PET studies Rik Schalbroeck, University of Cambridge, UK</p> <p>02. The Impact of Cumulative Prenatal Complications and Childhood Trauma on Brain Structure in Subjects with Psychotic Experiences Kate Merritt, UCL, UK</p> <p>03. Telomere length in severe mental disorders: exploring the role of early stress Monica Aas, Akershus University Hospital, Norway</p> <p>04. Exploring DNA Methylation as a Mediating Mechanism Linking Childhood Adversity and Psychosis in Patients with First Episode Of Psychosis Luis Alameda, King's College London, UK</p> <p>05. Childhood trauma and the psychopathological profile in first-episode psychosis (EU-GEI): exploring the moderating role of polygenic risk scores Monica Aas, Akershus University Hospital, Norway</p> <p>Discussant: Robin Murray, King's College London, UK</p>	LR1
	<p>OP11 New directions in global public mental health</p> <p>Chair: Antonia Errazuriz, Pontificia Universidad Católica de Chile, Chile</p> <p>01. The relationship of gross national income and healthcare expenses with duloxetine efficacy: a meta-regression analysis Thomas Klein, Ulm University, Germany</p>	LR2

Day 3 – Sat 10 Sep – Continues overleaf

Time / ID	Session	Room
WORLD SUICIDE PREVENTION DAY		
OP11 (con't)	New directions in global public mental health (continues from overleaf)	LR2
	Chair: Antonia Errazuriz , Pontifica Universidad Católica de Chile, Chile	
	02. Prevalence of depressive and anxiety disorders in Latin America: a systematic review and meta-analysis Antonia Errazuriz , Pontifica Universidad Católica de Chile, Chile	
	03. Depression care in Brazil: A cascade of intersectional inequities Milagros Ruiz , UCL, UK	
	04. Spirituality and religious participation in the prevention and management of depression and anxiety in young people Shilpa Aggarwal , Public Health Foundation of India, India	
	05. Definitions and scope of the mental health burden of global climate change Francis Vergunst , University of Oslo, Norway	
	06. Estimating the prevalence of common mental disorders for Aboriginal and Torres Strait Islander adults Imogen Page , Queensland Centre for Mental Health, Australia	
	07. Identifying risk factors for ADHD in a school-based population of Sri Lankan children Nazneen Nazeer , University of Cambridge, UK	
S23	Schizophrenia & violence: recent research findings	LR3
	Chair: Giovanni de Girolamo , St. John of God Clinical Research Centre, Italy	
	01. An European Study in Forensic Care: an Overview of The EU-Viomed Project. Giovanni de Girolamo , St. John of God Clinical Research Centre, Italy	
	02. Needs of Patients With a Schizophrenia Spectrum Disorder in Different European Countries Johannes Wancata , Medical University of Vienna, Austria	
	03. ---- WITHDRAWN ----	
	04. Improving The Assessment of Violence Risk in Clinical Services for Early Psychosis: a Prediction Tool Approach Daniel Whiting , University of Nottingham, UK	
	Discussant: TBC	
S24	Challenges & opportunities in mental health data science: the DATAMIND experience	LR4
	Chair: Robert Stewart , King's College London, UK	
	01. Antipsychotic Polypharmacy and Adverse Drug Reactions Among Adults in a London Mental Health Service, 2008-2018 Johan Thygesen , UCL, UK	
	02. Extracting Information about Pain from Free-Text of Mental Health Electronic Health Records Jaya Chaturvedi , King's College London UK	
	03. Changes in presentations to healthcare services with self-harm during the COVID-19 pandemic in Wales, UK Marcos del Pozo Banos , Swansea University, UK	
	04. Clustering and accumulated prevalence of physical health conditions in people with and without severe mental illness Naomi Launder , UCL, UK	
	Discussant: Ann John , Swansea University, UK	

Day 3 – Sat 10 Sep – Continues overleaf

Time / ID	Session	Room
WORLD SUICIDE PREVENTION DAY		
S25	<p>The mental health & wellbeing of NHS workers through the COVID-19 pandemic: a mixed methods programme of work including 23,462 participants, online surveys, qualitative & diagnostic interviews, and an RCT</p> <p>Chair: <u>Sharon Stevelink</u>, King's College London, UK</p> <p>01. An overview of results from a longitudinal cohort study of 23,462 healthcare workers: mental health, suicidal ideation, and moral injury <u>Danielle Lamb</u>, UCL, UK</p> <p>02. A thematic analysis of individual interviews with healthcare workers (HCWs) about their experiences of moral injury <u>Siobhan Hegarty</u>, King's College London UK</p> <p>03. A more accurate prevalence of PTSD and common mental disorders in healthcare workers in England: a two-phase epidemiological survey <u>Sharon Stevelink</u>, King's College London, UK</p> <p>04. Making use of largescale qualitative data: a structural topic modelling analysis of 7,412 healthcare worker free text survey responses <u>Danielle Lamb</u>, UCL, UK</p> <p>05. Effectiveness of a smartphone app in improving mental health and wellbeing in NHS workers during COVID-19 in the UK: a randomised controlled trial <u>Sam Gnanapragasam</u> Launder, UCL, UK</p> <p>Discussant: <u>Danielle Lamb</u>, UCL, UK</p>	LR5
10:00 - 10:30	COFFEE BREAK	RR/Foyer
10:30 - 10:45	<p>ECR Keynote 3 & prize winner: Violent experiences and neighbourhoods during adolescence: understanding and mitigating the impact on later mental health</p> <p><u>Dr Rachel Latham</u>, King's College London, UK. Chair: <u>Prof Ian Colman</u></p>	CH
10:45 - 11:00	<p>ECR Keynote 4 & prize winner: Multilevel interactions between family & neighbourhood socioeconomic indices in childhood and later risks of self-harm & violent criminality</p> <p><u>Dr Linda Ejlskov</u>, Aarhus University, Denmark. Chair: <u>Prof Ian Colman</u></p>	CH
11:00 - 11:30	<p>ECR Keynote 5: The hidden burden of eating disorders: implications for preventative interventions</p> <p><u>Dr Francesca Solmi</u>, UCL, UK. Chair: <u>Prof Ian Colman</u></p>	CH
11:30 - 12:30	<p>Plenary 5: Tackling Trauma: adverse childhood experiences and suicidal behaviours</p> <p><u>Prof Ann John</u>, Swansea University, UK. Chair: <u>Prof Ian Colman</u></p>	CH
12:30 - 13:00	<p>Closing Ceremony & Prize Announcements: Arnstein Mykletun, James Kirkbride</p>	CH
13:00 - 13:30	PICNIC LUNCH	RR/Foyer
Delegates are invited to enjoy their picnic lunch in Selwyn College gardens next door, or one of Cambridge's many beautiful parks & gardens		

CH: Concert Hall; LRI-LR5: Lecture Rooms 1-5; RR: Recital Room

Thank you for participating in our 20th Congress!

We wish you safe travels home & look forward to seeing you at our

21st Biennial Congress in 2024

Look out for announcements via:

www.psychepi.org/congress or on Twitter (@EPAPsyEpi)

ECR Rapid-Fire Talks – Thurs 8th September – RF1

Two parallel ECR Rapid-Fire sessions will take place on Thursday lunchtime, between 12:30-13:30. The first session (**RF1**) is listed below, and the second session (**RF2**) can be found overleaf. We encourage delegates to attend and support our ECRs. Each ECR speaker will have 5 minutes to present their work, inclusive of rapid-fire questions! A prize will be awarded to the best overall rapid-fire presentation by our chairs. The prize winner will be announced at our Closing Ceremony on Sat 10th September.

Time / ID	Session	Room
12:30 - 13:30	Severe mental illness, substance use, ADHD & dementia Chair: <u>Dr Els van der Ven</u> , Vrije Universiteit Amsterdam, Netherlands	LR4
RF1.01	Psychiatric disorders and risk of subsequent dementia: systematic review and meta-analysis of longitudinal studies <u>Jean Stafford</u> , UCL, UK	
RF1.02	Cross-sectional and Longitudinal Association between Apathy and Cognitive Function in the Community-dwelling Japanese Elderly <u>Hoko Nakagawa</u> , Hirosaki University, Japan	
RF1.03	Association between risk of dementia and very late-onset schizophrenia-like psychosis: a Swedish population-based cohort study <u>Jean Stafford</u> , UCL, UK	
RF1.04	Multimorbidity clusters among people with serious mental illness: a representative primary and secondary data linkage cohort study <u>Ruimin Ma</u> , King's College London, UK	
RF1.05	Climatic exposures in childhood and the risk of schizophrenia from childhood to early adulthood <u>Kaisla Komulainen</u> , University of Helsinki, Finland	
RF1.06	Service user and supporter views and aspirations for social functioning in schizophrenia in a UK Secondary Care sample: a qualitative interview study <u>Maria Long</u> , UCL, UK	
RF1.07	Where are pharmacotherapies for alcohol use disorders prescribed? A 10-year cohort study of the total Swedish population <u>Sara Wallhed Finn</u> , Karolinska Institutet, Sweden	
RF1.08	Is Personality Disorder Madness? A Qualitative Study of the Perceptions of Medical Students in Somaliland <u>Hanny Arisna</u> , East London NHS Foundation Trust, UK	
RF1.09	Maternal glucose levels throughout pregnancy and neurodevelopmental disorders in offspring: a group-based trajectory analysis <u>Shuyun Chen</u> , Karolinska Institutet, Sweden	
RF1.10	---- WITHDRAWN ----	
RF1.11	Longitudinal effects of birth weight on the mental health of children <u>Niamh Dooley</u> , Royal College of Surgeons in Ireland, Republic of Ireland	

ECR Rapid-Fire talks – Thurs 8th September – RF2

Time / ID	Session	Room
12:30 - 13:30	Mood & anxiety symptoms and disorders in the time of COVID-19 Chair: Dr Milagros Ruiz , UCL, UK	LR5
RF2.01	The effect of paternal mental illness on child development: an umbrella review Honor Scarlett , Pierre Louis Institute for Epidemiology & Public Health, France	
RF2.02	Trajectories of sickness absence among young adults: The role of early-life mental health conditions Iman Alaie , Karolinska Institutet, Sweden	
RF2.03	Exposure to air pollution and noise and mental health outcomes in the SCAMP cohort Rhiannon Thompson , Imperial College London, UK	
RF2.04	Evolution of mental health impact of the COVID-19 pandemic in Spain: a longitudinal survey at 17 months follow-up after the first wave Helena Garcia-Mieres , Institut Hospital del Mar d'Investigacions Mè, Spain	
RF2.05	Treatment use for mental health problems among Spanish healthcare workers active during the COVID-19 pandemic – findings from the MINDCOVID project Philippe Mortier , Institut Hospital del Mar d'Investigacions Mè, Spain	
RF2.06	The association between exposure to COVID-19 and mental health outcomes among healthcare workers in Netherlands Diana Czepiel , Parnassia Psychiatric Institute, Netherlands	
RF2.07	The gender dimension of mental health during the Covid-19 pandemic: a mediation analysis Kate Dotsikas , INSERM and Sorbonne University, France	
RF2.08	The effect of social support and loneliness on mental disorders symptoms during the COVID-19 pandemic Aina Gabarrell-Pascuet , Sant Joan de Déu Research Institute, Spain	
RF2.09	Prospective Machine Learning Based Prediction of Major Depressive Disorder Onset in Adults During a Large-scale Cohort Study Johannes Massell , University of Basel, Switzerland	
RF2.10	Agreement of survey-based and register-based measures of major depressive disorder Nanna Weye , Aarhus University, Denmark	
RF2.11	Relative telomere length and mental health outcomes: a five-year longitudinal study Racha Ghoussaini , American University of Beirut, Lebanon [PRE-RECORDED]	

ECR Rapid-Fire talks – Fri 9th September – RF3

Two parallel ECR Rapid-Fire sessions will take place on Friday lunchtime, between 12:30-13:30. The first session (**RF3**) is listed below, and the second session (**RF4**) can be found overleaf. We encourage delegates to attend and support our ECRs. Each ECR speaker will have 5 minutes to present their work, inclusive of rapid-fire questions! A prize will be awarded to the best overall rapid-fire presentation by our chairs. The prize winner will be announced at our Closing Ceremony on Sat 10th September.

Time / ID	Session	Room
12:30 - 13:30	Social determinants, mental health care & mortality Chair: <u>Prof James Kirkbride</u> , UCL, UK	LR4
RF3.01	Measuring social exclusion and its distribution in England <u>Jennifer Dykxhoorn</u> , UCL, UK	
RF3.02	The role of social relationships in the association between mental disorders and mortality – a population-sampled cohort study <u>Lisbeth Laustsen</u> , Aarhus University, Denmark	
RF3.03	The role of socioeconomic status on the association between mental disorders and mortality: a systematic review <u>Danni Chen</u> , Aarhus University, Denmark	
RF3.04	Mortality in persons with recent primary or secondary care contacts for mental disorders in Finland <u>Kimmo Suokas</u> , Tampere University, Finland	
RF3.05	Life expectancy and lifespan variation among people with mental disorders: a nationwide, register-based cohort study from Denmark <u>Yan Zheng</u> , Aarhus University, Denmark	
RF3.06	The Association Between Trust in the Workplace and Government and Healthcare Workers' Mental Health During the Initial COVID-19 Outbreak <u>Djordje Basic</u> , Vrije Universiteit Amsterdam, Netherlands	
RF3.07	Risk of hospitalised falls and hip fractures in working age adults receiving mental health care <u>Eugenia Romano</u> , King's College London, UK	
RF3.08	Predicting Mental Health of University Freshman Using Peer Relationship <u>Yeonju Lee</u> , Duksung Women's University, South Korea	
RF3.09	Examining informant reports of youth delinquent behaviours in school and home settings using the Trifactor Model <u>Alex Luther</u> , University of Waterloo, Canada	
RF3.10	Comparing Youth With vs Without Outpatient Mental Health Services on Subsequent Acute Mental Health Care Visits <u>Jordan Edwards</u> , McMaster University, Canada	
RF3.11	Patterns of delinquent behaviours and experiences of victimization: a latent class analysis among youth in Ontario, Canada. <u>Alex Luther</u> , University of Waterloo, Canada	

ECR Rapid-Fire talks – Fri 9th September – RF4

Time / ID	Session	Room
12:30 - 13:30	Children & young people's mental health: new approaches & evidence Chair: <u>Dr Renee Gardner</u> , Karolinska Institutet, Sweden	LR5
RF4.01	Exploring the longitudinal impact of social media use on adolescent mental health: Findings from the UK Longitudinal Household Study <u>Ruth Plackett</u> , UCL, UK	
RF4.02	Puberty as an effect-modifier for the association between mobile phone usage and later internalizing symptoms in adolescents in the SCAMP cohort <u>Alexander Spiers</u> , Imperial College London, UK	
RF4.03	Police contact, stop and search, and mental distress among young people in inner-city London: findings from the REACH cohort study <u>Samantha Davis</u> , King's College London, UK	
RF4.04	Depictions of Mental Health in "Top Boy" <u>Wesley Quadros</u> , University of Oxford, UK

RF4.06	Parent-child nativity, race and ethnicity, and number of adverse childhood experiences among U.S. children <u>Kasra Zarei</u> , National Institute of Minority Health and Health Disparities, NIH, USA	
RF4.07	Peer-friendship networks and self-injurious thoughts and behaviours in adolescence: a systematic review of sociometric school-based studies <u>Holly Crudgington</u> , King's College London, UK	
RF4.08	Student disclosure and non-disclosure of mental health within the university environment: a quantitative exploration <u>Amy Zile</u> , University of East Anglia, UK	
RF4.09	Autistic symptoms, irritability, and executive dysfunctions are segregated: A network modelling approach <u>Kenneth Ka Lee</u> , University of Oxford, UK	
RF4.10	Student welfare during COVID-19: Perspectives from Australian secondary school staff <u>Mirjana Subotic-Kerry</u> , Black Dog Institute, Australia	
RF4.11	Monitoring the development in research activities by means of bibliometrics <u>Anton Tambour Gregersen</u> , University of Southern Denmark, Denmark	

Poster presentations – Thurs 8th September – P1

We have two poster sessions on Thursday 8th Sep (P1) and Friday 9th Sep (P2). Posters will be available for viewing each day in the Recital Room. The main poster viewing session each day will take place during the lunch period (12:00 – 13:30) when presenters have been asked to stand next to their posters.

Abstracts for all posters can be found in our online abstract book at www.psychepi.org/congress/programme/abstracts or by using the QR code to the right.

A Poster Prize will be awarded to the best poster presentation at our Congress, to be judged by members of our Scientific Committee and announced during our Closing Ceremony. Poster judging will take place at lunchtime on Thursday and Friday, from 12:15 – 13:15. Delegates may join one of three poster tours led by a member of our Scientific Committee each day. If you wish to do so, please meet at the first nominated poster in each poster tour at 12:15. The first nominated poster of each of three tours on Thursday and Friday lunchtime is shown below, immediately after the title heading for sessions P1 (below) or P2 (page 25). Poster presenters will in each tour will give a 2 minute presentation of their poster followed by time for questions.

P1 Well-being, distress, mood & anxiety disorders, self-harm & suicidality

Poster tours will begin at 12:15 from Posters [P1.01](#), [P1.13](#) and [P1.27](#), led by a member of our Scientific Committee. Our full poster tour schedule can be viewed as a PDF from the QR code to the right.

P1.01 Testing lifecourse theories characterising associations between maternal depression and offspring depression in late adolescence
Rebecca Lacey, UCL, UK

P1.02 Factor and network structure of the Italian version of the International Trauma Questionnaire in late adolescents exposed to a natural disaster.
[Rodolfo Rossi](#), University of Rome Tor Vergata, Italy

P1.03 Psychological distress and associated factors among nigerian healthcare workers during covid-19 pandemic
[Adesanmi Akinsulore](#), Obafemi Awolowo University, Nigeria

P1.04 Mental health during the COVID-19 pandemic and lockdown in Lebanon: Risk and protective correlates in a multiple-crises setting
[Martine Elbejjani](#), American University of Beirut, Lebanon

P1.05 ---- WITHDRAWN ----

P1.06 ---- WITHDRAWN ----

P1.07 Identifying major depressive disorder using the Center for Epidemiological Studies Depression Scale Revised among South African patients in HIV care
[Ashraf Kagee](#), University of Cape Town, South Africa

P1.08 ---- WITHDRAWN ----

P1.09 Changes in mental health outcomes in the general population 14 months into the COVID-19 pandemic in Italy.
[Rodolfo Rossi](#), University of Rome Tor Vergata, Italy

- P1.10 Acceptability and feasibility of the smartphone application “Doing What Matters in times of stress” in people in unstable housing: RESPOND – France
Julian Vadell Martinez, INSERM and Sorbonne University, France
- P1.11 Integration of Sociomedical Thoughts Focused on Well-Being among Ethn racially Minoritized Populations
Yasukiyo Sugimoto, University of Miami, United States
- P1.12 The role of genetics and the environment on the relationship between weight related indicators and common mental health: results from two twin studies
Ellen Thompson, King's College London, UK
- P1.13 Exposure to consistently high maternal depressive symptoms during childhood predicts young adult health risks: Preliminary analyses of a 17-year study
Laura Bechtiger, University of Zurich, Switzerland
- P1.14 Psychosocial factors as moderators in the relationship between victimization and adverse adolescent mental health
Danielle Lemaire, University of Ottawa, Canada
- P1.15 Surveillance of Child and Youth Mental Health and Associated Service Use in Canada: A Population Health Surveillance Framework
Jordan Edwards, McMaster University, Canada
- P1.16 Association between loneliness and mental health hospitalisation outcomes among patients receiving mental healthcare in South London
Gayan Perera, King's College London, UK
- P1.17 Multiple Pain Trajectories and their associations with Anxiety, Depression, and Optimism
Sayyed Haybatollahi, University of Nottingham, UK
- P1.18 Preventing the onset of depression in adolescents "at risk" - Comparison of Online versus In Real life - intervention.
Carl Wikberg, University of Gothenburg, Sweden
- P1.20 ---- WITHDRAWN ----
- P1.21 ---- WITHDRAWN ----
- P1.22 ---- WITHDRAWN ----
- P1.23 ---- WITHDRAWN ----
- P1.24 Stories against Stigma: Walking Tour of NIMHANS- Initial pilot evaluation of public attitude towards Mental Health Institute, Mental Health Profession
Meena Kolar Sridara Murthy, National Institute of Mental Health and Neuro Sciences, India
- P1.25 Perception of employees on mental health at a leading botanical garden, India: A qualitative Study
Meena Kolar Sridara Murthy, National Institute of Mental Health and Neuro Sciences, India
- P1.26 Can Working Conditions and Employees' Mental Health Be Improved via Workplace Interventions Designed and Implemented by Operational-level Managers?

Magnus Akerstrom, Institute of Stress Medicine, Sweden

P1.27 Experiencing mental health problems but not being sickness absent: what factors play a role for employees in the private sector?

Jurgita Narusyte, Karolinska Institutet, Sweden

P1.28 Nudging clinicians and patients with CMD to discuss work, barriers for return to work, and motivation. The NSAC Nudge RCT

Arnstein Mykletun, Haukeland University Hospital, Norway

P1.29 ---- WITHDRAWN ----

P1.30 Same-sex Attraction as a Predictor of Suicide and Self-harm Behaviours—The role of Bullying and Social Support

Irena Tetkovic, University of Oxford, UK

P1.31 ---- WITHDRAWN ----

Sarah Ashley, UCL, UK

Poster presentations – Fri 9th September – P2

We have two poster sessions on Thursday 8th Sep (P1) and Friday 9th Sep (P2). Posters will be available for viewing each day in the Recital Room. The main poster viewing session each day will take place during the lunch period (12:00 – 13:30) when presenters have been asked to stand next to their posters.

Abstracts for all posters can be found in our online abstract book at www.psychepi.org/congress/programme/abstracts or by using the QR code to the right.

A Poster Prize will be awarded to the best poster presentation at our Congress, to be judged by members of our Scientific Committee and announced during our Closing Ceremony. Poster judging will take place at lunchtime on Thursday and Friday, from 12:15 – 13:15. Delegates may join one of three poster tours led by a member of our Scientific Committee each day. If you wish to do so, please meet at the first nominated poster in each poster tour at 12:15. The first nominated poster of each of three tours on Thursday and Friday lunchtime is shown below, immediately after the title heading for sessions P1 (below) or P2 (page 25). Poster presenters will in each tour will give a 2 minute presentation of their poster followed by time for questions.

P2 SMI, substance use, comorbidity, childhood-onset disorders & health services

Poster tours will begin at 12:15 from Posters [P2.01](#), [P2.08](#) and [P2.22](#), led by a member of our Scientific Committee. Our full poster tour schedule can be viewed as a PDF from the QR code to the right.
